Proposed Rezoning From SCI District to RG-6.5 District

Rezoning Petition - 18 Raymond Place

(Citizen Petition, Thomas Cavaretta)

MOTION: **MOVED AND SECONDED** that the Town vote to approve Article 40 as printed in the warrant.

BACKGROUND: *The proposed zoning change from Conservancy-Institutional District (SCI) to the General Residence District (RG-6.5) would allow this property to better align with the character and established use of the surrounding neighborhood. The property is located within an area that is completely residential, and transitioning the zoning to residential would create an opportunity for the site to become a natural extension of the existing neighborhood.*

The current owners, the Christopher Columbus Club (CC Club), are planning to relocate to a more suitable location that better meets the needs of their organization. As part of that transition, they would like to position the property for its next chapter and make it as attractive as possible to prospective buyers interested in creating a residence.

A residential zoning designation would provide an opportunity for the property to be thoughtfully redeveloped into a home that complements the surrounding neighborhood. The goal is to create a property that is consistent with the residential character of the area while allowing a future homeowner or builder to build their forever home and become part of the existing community.

2/3rd Vote Required
